

Lesson Two

The Art of Budgeting

the art of budgeting websites

Effective money management requires a step-by-step plan for saving and spending. Simply, it demands a good budget. Students need to become familiar with how to build and maintain a realistic budget for their specific needs.

the art of budgeting lesson outline

overview

A personal budget is a financial plan that allocates future income toward expenses, savings, and debt repayment. “Where does the money go?” is a common dilemma faced by many individuals and households when it comes to budgeting and money management.

Effective money management starts with a goal and a step-by-step plan for saving and spending. Financial goals should be realistic, be specific, have a timeframe, and imply an action to be taken. This lesson will encourage students to take the time and effort to develop their own personal financial goals and budget.

In this chapter students will monitor their spending habits (in writing) and will be able to better obtain the most value for their available dollars. We will also demonstrate that by carefully considering needs and wants, an individual or family will spend appropriate amounts for current living expenses, while saving and investing for long-term financial security.

goals

Assist in identifying and prioritising personal and financial goals, create a plan to achieve those goals, and provide practice in setting up and maintaining a personal budget.

lesson objectives

- Identify and prioritise some of your personal and financial goals
- Identify the steps you can take and the resources you will need to achieve your goals
- Identify and examine your current spending behaviours and patterns
- Understand what it means to budget, and identify the reasons to maintain a budget
- Create and maintain a personal budget that supports your personal and financial goals

student activities

2-1 What Are Your Goals?

- Ask students what some of their goals are, based on their life situation. List them at the front of the room, separating them into short-, intermediate-, and long-term goals.
- Pick one goal from each group. Have the class brainstorm steps they can take and the resources needed to achieve those goals.
- Ask students to individually work through “What Are Your Goals?” and “Working with Your Goals.”

2-2 Where Does Your Money Come From?

- Ask students to identify their current or potential (new job, career change) sources of income.
- Discuss the feelings of being financially dependent vs. financially independent.

2-3 Where Does Your Money Go?

- Ask students to keep a record of everything they spend during a one-month period.
- Ask students what patterns they can see in their spending habits.
- Discuss topics such as impulse buying, how to decide what to purchase, and what factors might influence purchasing decisions.

2-4 Setting Up and Maintaining a Personal Budget

- Ask students to set up a personal budget that supports their personal and financial goals.
- Ask students to try to stick to their budget for one month.
- After the month has passed, discuss what it was like to stick to a budget. Was the budget realistic? Where did they overspend? In which areas did they spend less than what they planned? Were they able to make progress toward their financial goals? What would they change about their budget?

2-5 Rework a Budget

- Have students set up, maintain, and rework a budget for the scenarios and then for themselves.
